

# Energy performance certificate (EPC)

Ground Floor  
14 Hodge Road  
WORSLEY  
M28 3AT

Energy rating

C

Valid until: 20 May 2033

Certificate number: 2013-8883-3114-8285-6113

Property type

Ground-floor flat

Total floor area

53 square metres

## Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance) (<https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance>).

## Energy rating and score

This property's current energy rating is C. It has the potential to be B.

See how to [improve this property's energy efficiency](#).

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D  
the average energy score is 60

Score	Energy rating	Current	Potential
92+	A		
81-91	B		
69-80	C	71 C	76 C
55-68	D		
39-54	E		
21-38	F		
1-20	G		

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Poor
Roof	Pitched, no insulation (assumed)	Very poor
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in all fixed outlets	Very good
Roof	(another dwelling above)	N/A
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

### Primary energy use

The primary energy use for this property per year is 229 kilowatt hours per square metre (kWh/m<sup>2</sup>).

### Environmental impact of this property

This property's current environmental impact rating is C. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year. CO<sub>2</sub> harms the environment.

An average household produces 6 tonnes of CO<sub>2</sub>

This property produces 2.1 tonnes of CO<sub>2</sub>

This property's potential production 1.6 tonnes of CO<sub>2</sub>

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

Environmental impact ratings are based on assumptions about average occupancy and energy use. They may not reflect how energy is consumed by the people living at the property.

### Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Internal or external wall insulation	£4,000 - £14,000	£165
2. Floor insulation (solid floor)	£4,000 - £6,000	£65

**Step**

**Typical installation cost**

**Typical yearly saving**

## **Paying for energy improvements**

You might be able to get a grant from the [Boiler Upgrade Scheme](https://www.gov.uk/apply-boiler-upgrade-scheme) (<https://www.gov.uk/apply-boiler-upgrade-scheme>). This will help you buy a more efficient, low carbon heating system for this property.

---

## **Estimated energy use and potential savings**

Based on average energy costs when this EPC was created:

Estimated yearly energy cost for this property	£1126
--	-------

Potential saving if you complete every step in order	£230
--	------

The estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It is not based on how energy is used by the people living at the property.

### **Heating use in this property**

Heating a property usually makes up the majority of energy costs.

### **Estimated energy used to heat this property**

Type of heating	Estimated energy used
-----------------	-----------------------

Space heating	6054 kWh per year
---------------	-------------------

Water heating	1868 kWh per year
---------------	-------------------

### **Potential energy savings by installing insulation**

Type of insulation	Amount of energy saved
--------------------	------------------------

Loft insulation	677 kWh per year
-----------------	------------------

Solid wall insulation	1584 kWh per year
-----------------------	-------------------

### **Saving energy in this property**

## Contacting the assessor and accreditation scheme

This EPC was created by a qualified energy assessor.

If you are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

If you are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.

### Assessor contact details

Assessor's name	Anthony Gray
Telephone	07766701002
Email	<a href="mailto:antgray@sky.com">antgray@sky.com</a>

### Accreditation scheme contact details

Accreditation scheme	ECMK
Assessor ID	ECMK301812
Telephone	0333 123 1418
Email	<a href="mailto:info@ecmk.co.uk">info@ecmk.co.uk</a>

### Assessment details

Assessor's declaration	No related party
Date of assessment	15 May 2023
Date of certificate	21 May 2023
Type of assessment	<u>RdSAP</u>
